

HSC 4851

BAS Applied Health Sciences – Biomedical Sciences

Student Internship Checklist

HSC 4851 - Health Sciences Internship: College Credits: 3

This course to be taken in the last semester of the program.

Prerequisite: Departmental approval or admission to Bachelor's program required.

The health sciences internship is the capstone project for the BAS in Applied Health Sciences. It is a culminating project requiring the application and mastery of the program competencies. Student chooses and works collaboratively with community organizations or agencies during the practical experience, based on his/her personal and professional interest for their career growth.
